Spread over 18.5 acres, Jio World Centre is a multifaceted development that is a prime location for business, leisure, entertainment, and retail in the prestigious precinct of Bandra-Kurla Complex (BKC). Home to Ideas, Innovation, and Culture, this building is a new icon for both Mumbai and India.

There are several precincts located within this magnificent development such as the Jio World Convention Centre, which is India's largest convention centre. Apart from this, Jio World Centre houses The Cultural Centre; Jio World Plaza; Jio World Residences and The Clubhouse, and an office complex. It also includes Jio World Drive and Bay Club, which are part of the Jio World network in BKC but located outside the precinct.

A GLOBAL GATEWAY

India: Home to 1.3 billion people, India is a culturally diverse country that is also the oldest civilization, and the world's largest democracy. Apart from its incredible architecture, picturesque locations and renowned hospitality, India's traditions in the visual and performing arts are among the greatest in the world. Holding the largest youth population in the world, it is fast establishing itself as the preferred global destination for business, and a key player on the economic stage.

Mumbai: This is one of the world's great capitals of finance and business, and home to the largest film industry anywhere. Situated at the crossroads of global culture and commerce, and with a well-established infrastructure, it has a concentration of the strongest minds and companies. The Jio World Convention Centre will help create paradigm shifts in how the city is equipped to handle large-scale events.

Bandra Kurla Complex: This is the first master planned suburb, which is transformative, commercial development and one of the fastest growing districts in the city. Its cosmopolitan outlook and strategic connectivity to the rest of the city make it a top business hub, and one that is ideally positioned to be the postcode for Jio World Centre.

PIONEERING WITH 5G TECHNOLOGY

Driven by technology and committed to digital innovation, Jio World Centre comprises one integrated centre with the aim to create a better world. It offers a host of exceptional experiences such as India's first 5G enabled digital infrastructure with uninterrupted data, connected environments and more; virtual and hybrid events; unparalleled online cultural experiences such as live streaming of shows, master classes, workshops and educational programs; and smart residences, offices and retail.

WHERE IDEAS, INNOVATION
AND CULTURE MEET

JIO WORLD CONVENTION CENTRE - WHERE EVENTS COME TO LIFE

With an area totalling 46,803 sq. m., Jio World Convention Centre marks the creation of the largest Convention and Exhibition Centre in India. Here, cutting-edge technology meets world-class architecture. Its features include highly flexible venues for multiple events, virtual, physical and hybrid event options, impeccable safety standards, advanced technologies, the finest food along with service and support staff that ensure you have everything you need to host outstanding events, exhibitions, social celebrations, trainings, meetings, trade shows, conferences and conventions.

AT A GLANCE

3 exhibition halls spanning 15,000 sq. m. divisible by operable walls on the ground floor.

2 modern convention halls spanning 10,000 sq. m. divisible by operable walls on the third floor.

1 majestic ballroom spanning 3,000 sq. m.

25 meeting rooms ranging from 16 – 187 sq. m. across the 4 floors that can be converted to suit any event.

Concourses totalling 13,000 sq. m. run alongside the atrium on all 4 floors, with daylight streaming in, filling the space with abundant natural light.

A 1,500 sq. m. registration hall with an attached Business Centre, which is purpose-built to provide a smooth registration experience.

ATITHI DEVO BHAVA

India is renowned for following the Sanskrit adage, *Atithi Devo Bhava* (अतिथि देवो भवः), which translates as 'a guest is your god'. This unmatched Indian hospitality is what gives Jio World Convention Centre its soul. Dedicated staff set the tone for service that is exceptional and full of warmth. From personalised assistance for welcoming your guests to being on-hand to enhance your overall conference experience, our experts meet all your event planning needs from start to finish.

THE DETAILS ARE IN THE DESIGN

The design vocabulary tells the story of India, its art, craft and the personalities of its people. Everything from the use of colours in India to its extraordinary textures have found a place in the design. The philosophy of highlighting Indian traditional and cultural design aspects such as traditional lotus motifs, intricate jaali work, semi-precious stones and lush jewel tones echo throughout the development. In this way, it seamlessly interweaves layers of heritage with contemporary, modern spaces.

As the country's largest Convention Centre, it is defined by a strong architectural language that is a nod to traditional Indian elements along with modern design. The result is an iconic building with a distinct personality. From the hand-crafted chandeliers in the concourses that are inspired by sacred elements like earth, fire, air and water, to the stunning Lotus Ballroom with its stunning gold ceiling, and the intricate jaali work in the boardrooms, the spaces in Jio World Convention Centre are unique.

GREEN CREDENTIALS

Jio World Convention Centre is LEED Platinum pre-certified. 20% of the total building area is landscaped with over 700 native trees; most of the water and 98% of the sewage is recycled, and there is a dedicated facility for on-site waste reduction management. 75% of all regularly occupied areas receive natural daylight, which results in saving 40% energy. It has a completely paperless event booking management system with e-menus and e-bills and sustainable materials for all boxes and packaging. The Centre will actively look at spreading knowledge about climate change through various programmes, festivals and workshops, and will collaborate with partners who share these ideals.

LEED PLATINUM
PRE-CERTIFIED

A wide-angle photograph of a stage production. The stage is covered in a dense, multi-colored web of strings, primarily in shades of purple, blue, and orange. In the lower-left foreground, a large white screen displays a video of people. The stage floor is made of wooden planks, and the background features a complex steel truss structure with stage lights. The overall atmosphere is dark and dramatic.

DELIVERING EXCEPTIONAL
EXPERIENCES

INNOVATIVE CULINARY EXPERIENCES

Designed to be a hub of international cuisine and reflecting the city's vibrant food scene, Jio World Convention Centre's team of world-class chefs can craft over 18,000 delicious gourmet meals every day. Whether you are looking at hosting celebratory galas, formal sit-down dinners, corporate events, conferences, seminars or conventions, we ensure that all of these are complemented by a uniquely thoughtful culinary experience and impeccable service.

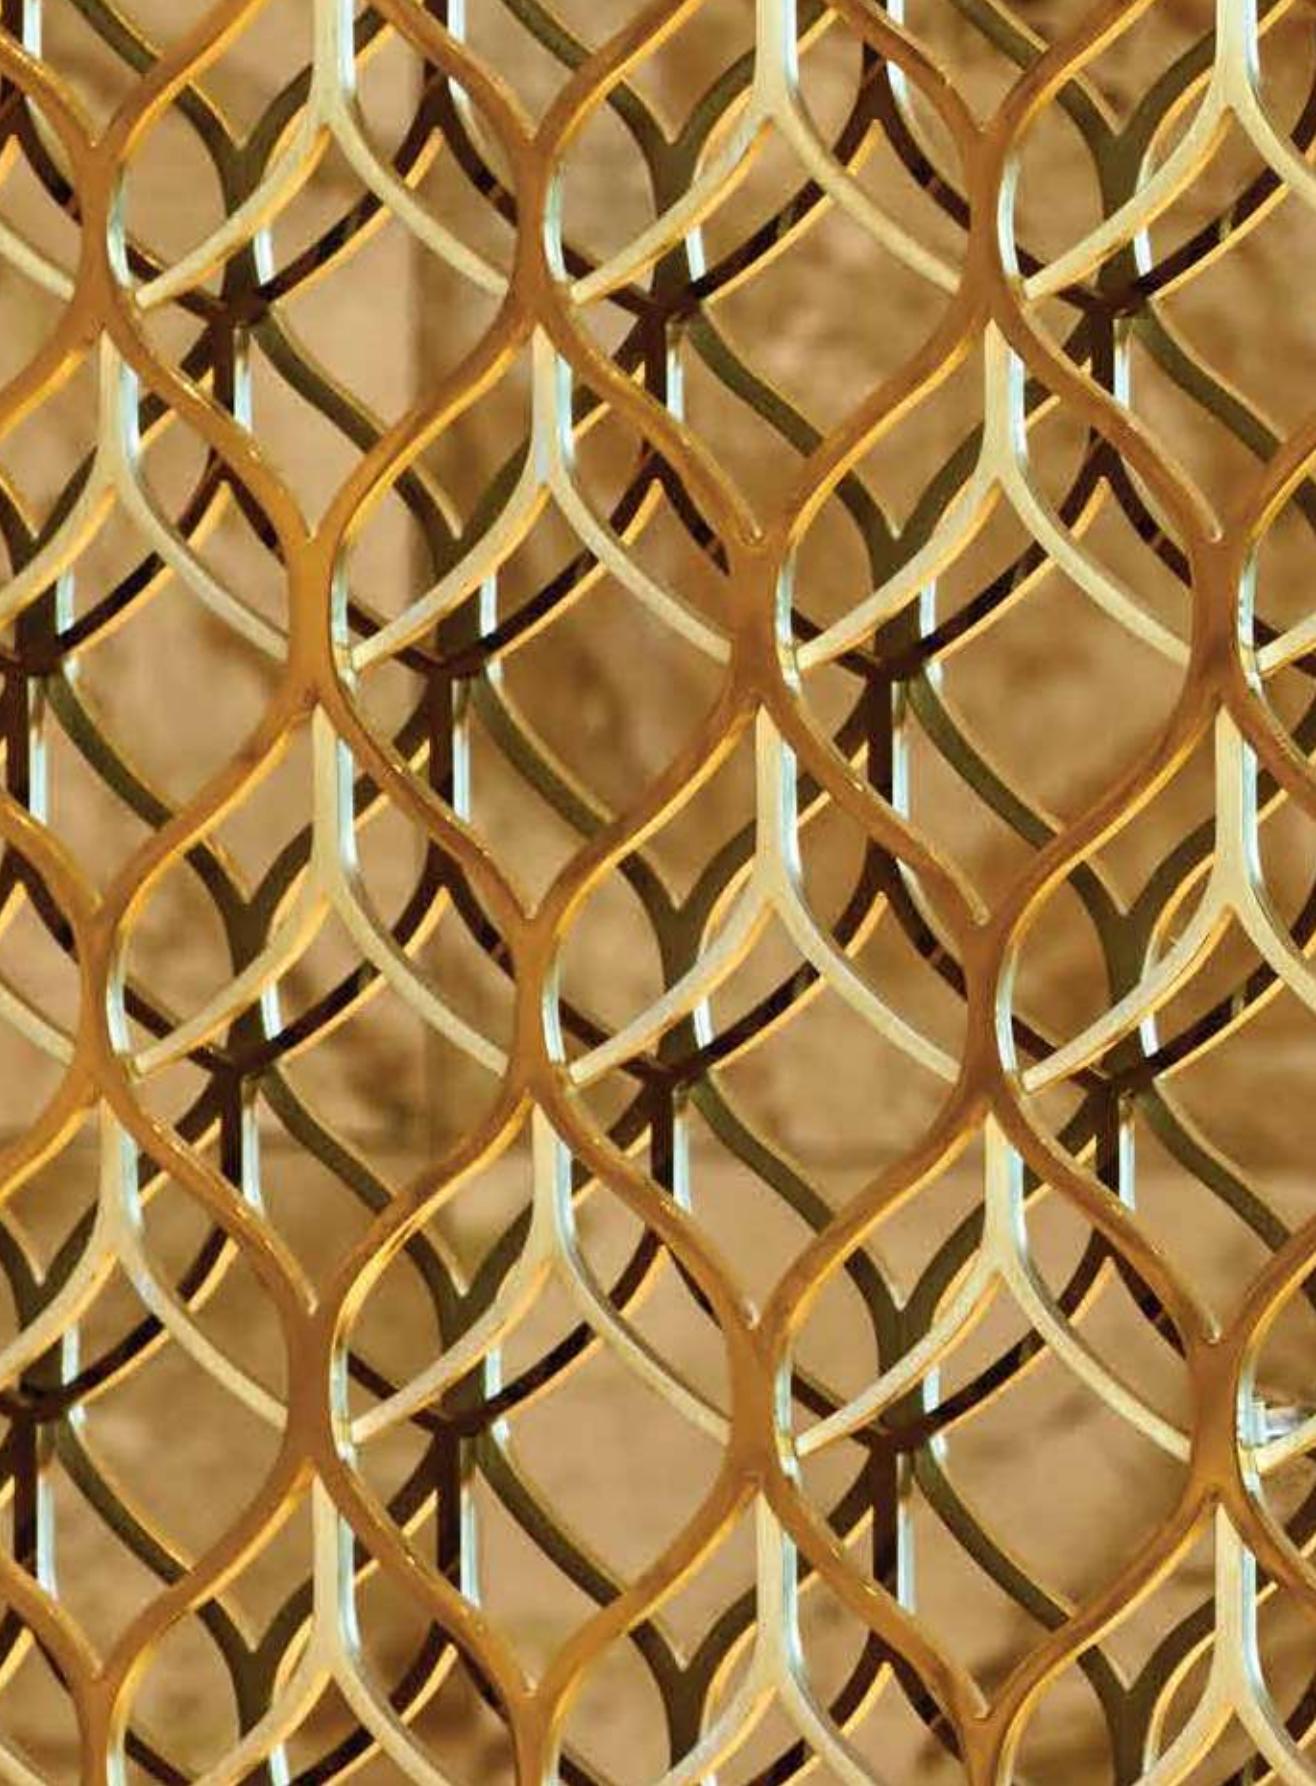

For all special occasions, we have culinary experts to ensure that your dream day has curated and gourmet meals. Our impressive roster of sommeliers and master bartenders will serve up incredible cocktails and fine wines.

Our culinary philosophy is to use responsibly sourced, seasonal ingredients to create a superb selection of menus for every occasion and size, and our repertoire spans Indian, Regional Indian, European, Asian and the Pacific Rim cuisines. In addition, there is an exclusive, physically separated vegetarian kitchen to ensure a 'pure kitchen' concept. We are also equipped to cater to guests with medical and dietary considerations. Our ISO 22000:2018 certified kitchens are also equipped with the latest culinary tools available, and has an efficient waste management system to reduce, reuse, recycle and recover waste.

From the latest in molecular gastronomy to focusing on modern interpretations of regional favourites, and promoting an "eat local" philosophy, we invite you to dive into a world of delicious flavours and enjoy an unforgettable experience.

AN INTEGRATED COMMUNITY

Helipad

For emergency air evacuation

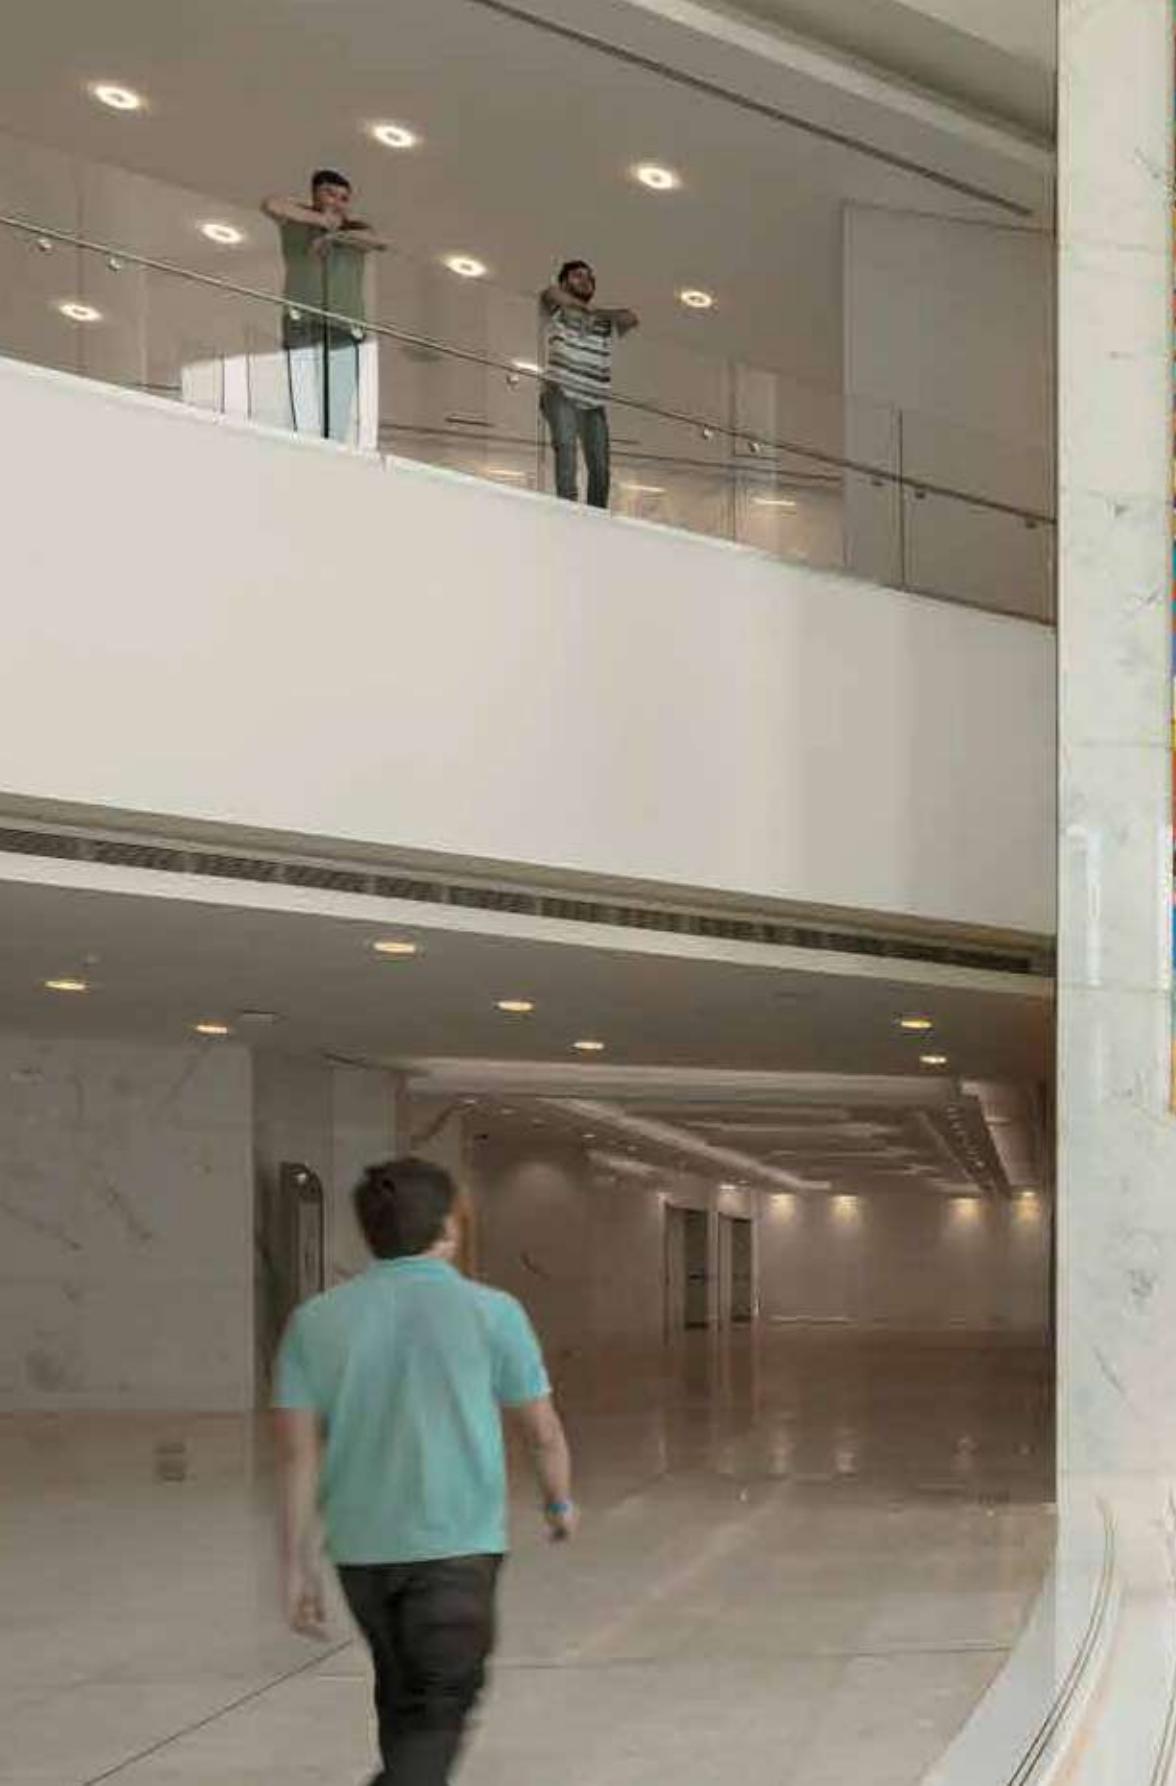

Lifesaving Equipment

AED, oxygen, monitors, suction pumps, nebulizers and emergency bags

OTHER JIO WORLD PRECINCTS

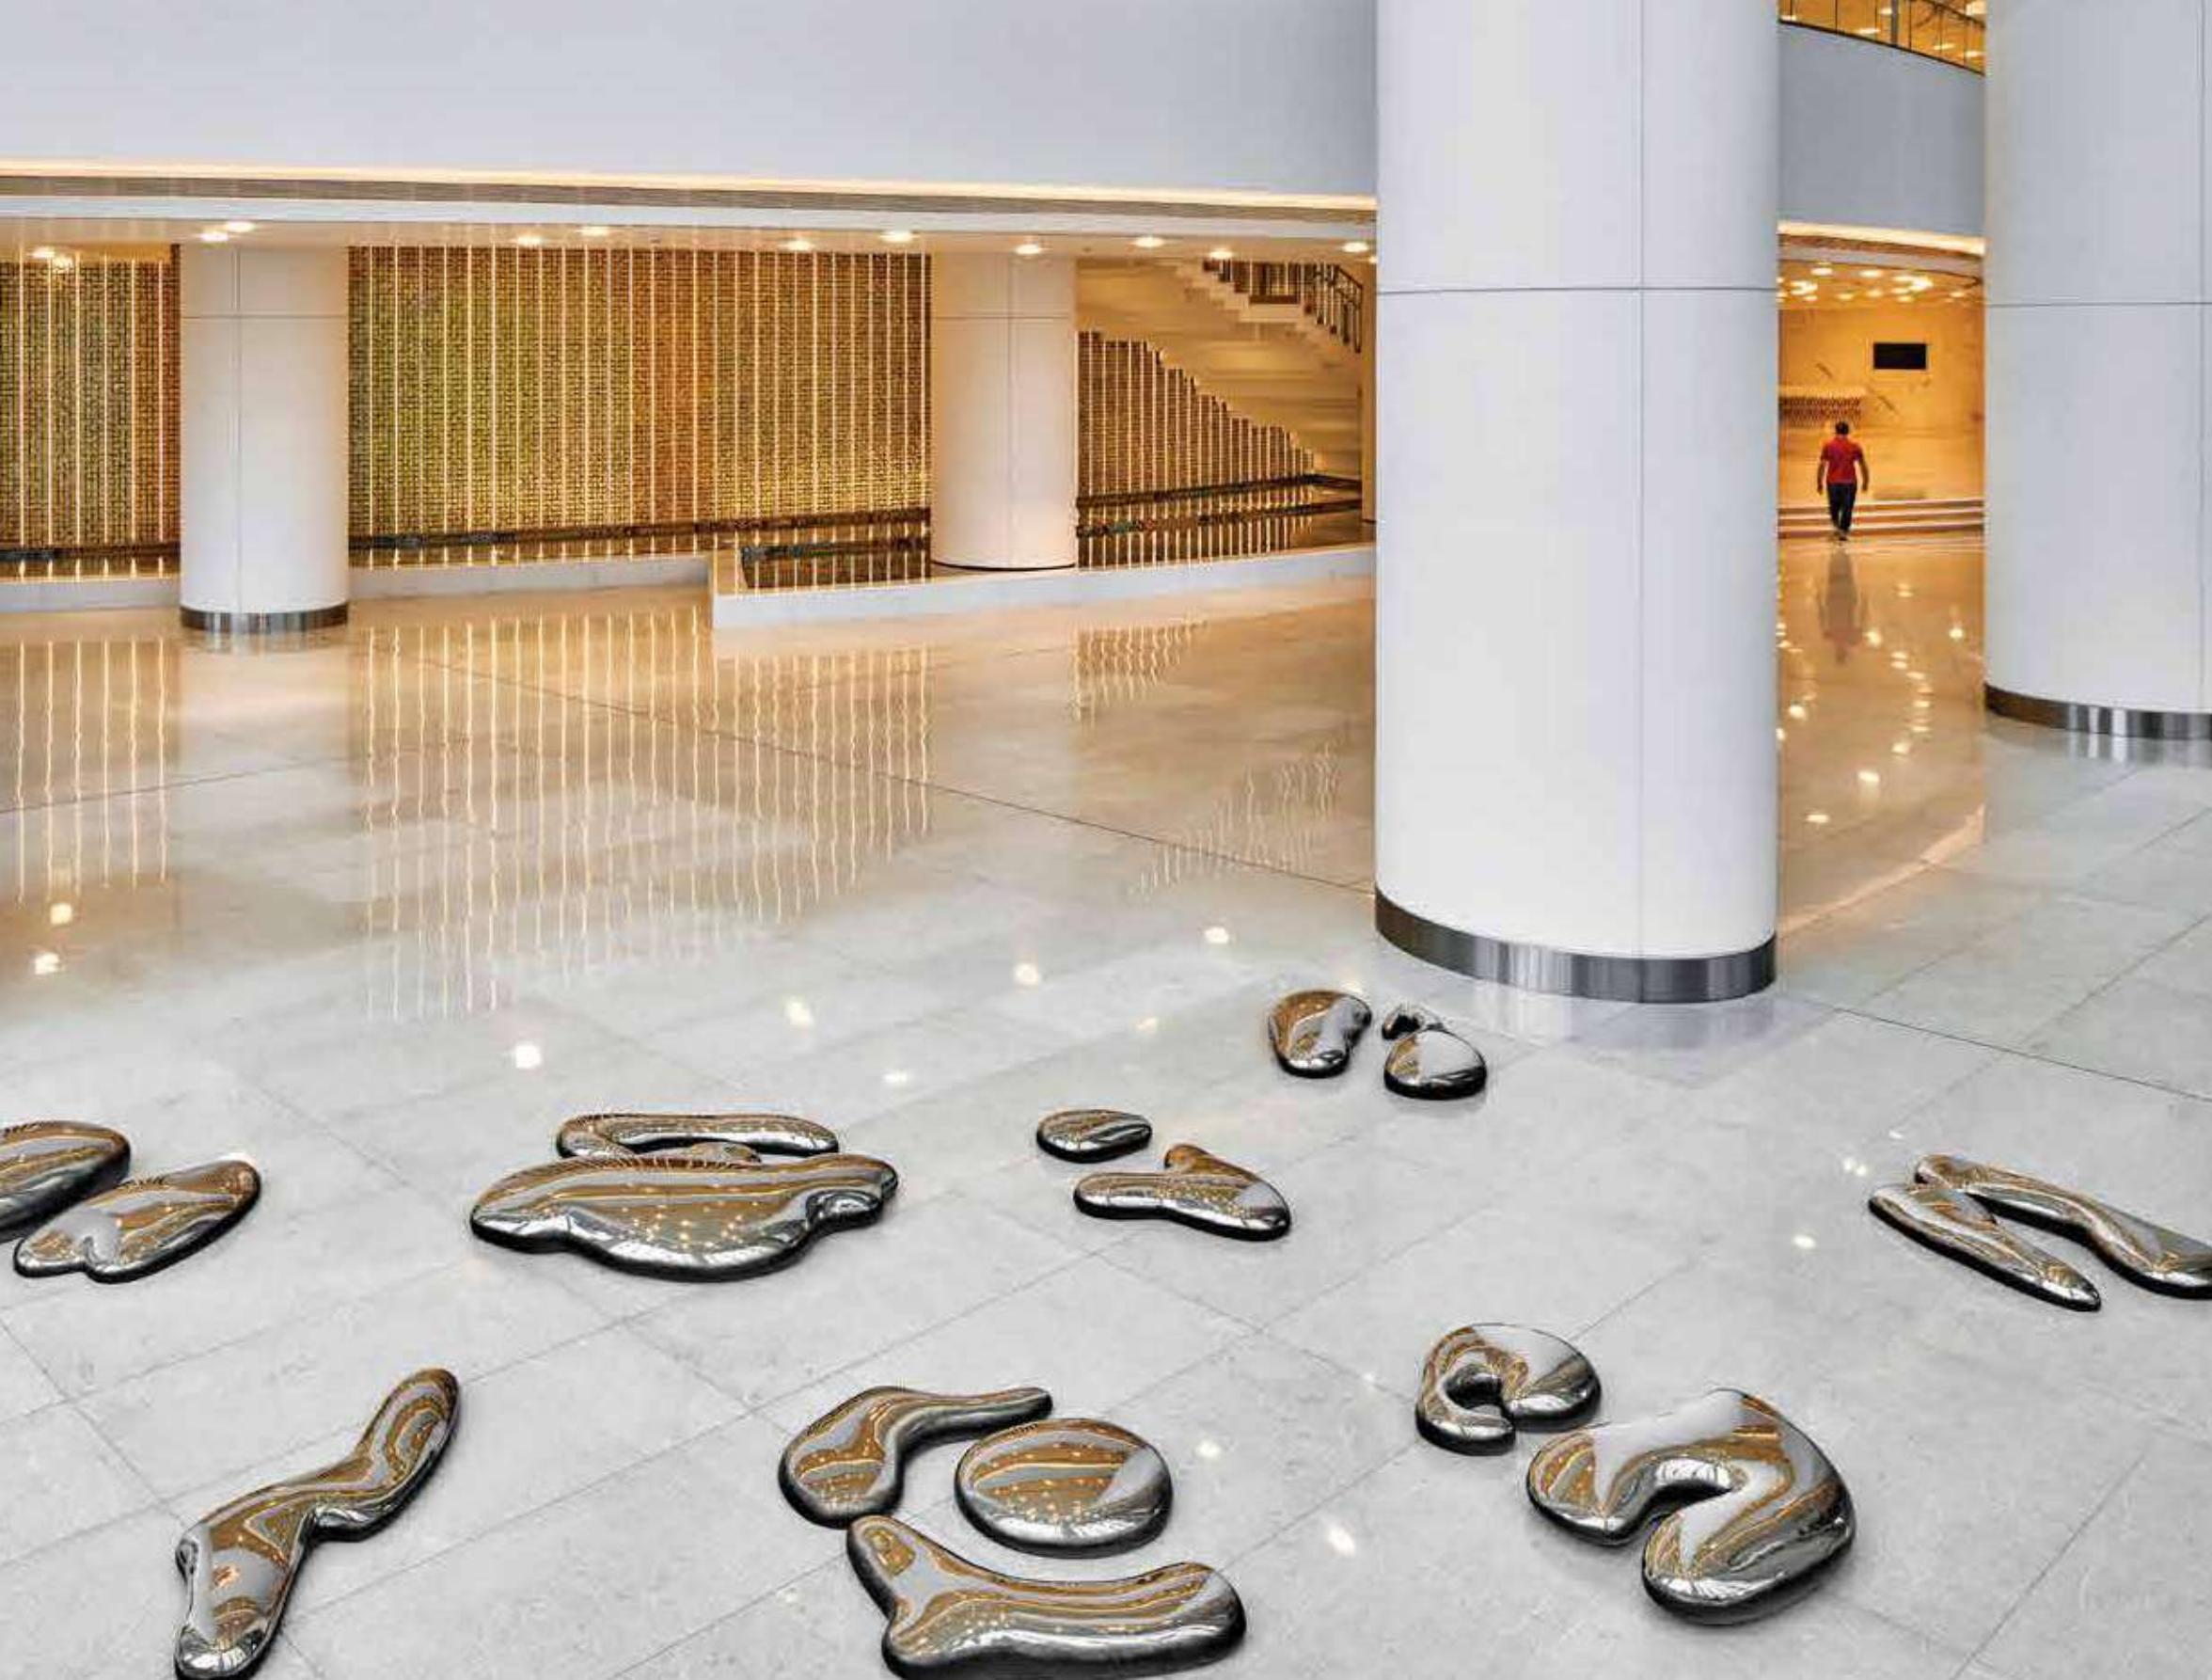

A VIBRANT ART STORY

Showcasing thoughtful and engaging artworks, the one-of-its-kind public art narrative at Jio World Centre plays a unique role of telling stories through visual arts, social history and installations.

With growth and community as the theme, the artworks have been specially selected and created to both, highlight the past and celebrate the future. The mission is to make the arts accessible to everyone, and in this way, trigger emotions and engage with everyone who views them. By seamlessly integrating architecture with public art, Jio World Centre creates a visually stimulating environment that weaves the arts into the social fabric of daily conversations, connects communities, transforms the area, and brings creativity to life.

Mostly contemporary, there is, however, a stand-out traditional piece, one of the largest commissioned works that celebrates Pichwai paintings. A style of paintings that originated more than 400 years ago in Rajasthan, India, Pichwai paintings are made on cloth and require immense skill, time and precision to complete. They were originally used to decorate the temple of Shrinathji (Shrinathji ki Haveli) in Nathdwara, Rajasthan. Standing tall at 4.9-feet, this large-format Pichwai work is an initiative by the Reliance Foundation to revive this dying art form and offer patronage to the Rajasthani artist pursuing this form of painting.

The other curated pieces are all conversation starters in themselves and include:

N. S Harsha: Centered around the concept of community, N.S.Harsha's larger-than-life installation recalls how people turn their gaze to the sky to try and try to read their future. His work invites people to mirror this act but to do so as a community and not as an individual. He encourages viewers to share in the journey of life by asking: *Who are we, and Where are we going.*

Jagannath Panda: The work '*Infinity*', which represents an interdependent relationship between man and nature, is defined by the idea that 'contribution is growth'. Mutually reliant on each other, both culture and nature still strive to maintain their autonomous identities. Based on six principles, which include *Certainty, Diversity, Significance, Love/Connection, Growth and Contribution*, the work is conceptualised as a constellation of time and space through various patterns of circles.

Jitish Kallat: '*Here After Here*', is an artwork that is similar to a piece the artist created for a public roundabout in Lower Austria. The artwork is loop-like to reference the mythic symbol of ouroboros, ancient eternal knots, alchemical diagrams and sacred geometry, while stretched traffic signage recalls cities across the world and the distance to each from 'here' to 'there'. As one goes towards the top of the artwork, distances from here to space become visible.

Vibha Galhotra: '*City Obscure*' encapsulates Galhotra's experience with the city of Mumbai while showcasing its many dichotomies. By investigating its identity, politics and culture through its historical and colonial past in the fast-growing, globalised India, it weaves a fascinating contradicting and complex construct where life happens no matter what, and where one experiences the constant construction, deconstruction, and reconstruction of structure. She constructed the work using leitmotif ghungroos (small ankle bells) that are often used in jewellery. The material is used in such a way that its materiality is transformed from being a material of sound and movement to becoming a static one that is sewn together as pixels to create an image.

Yayoi Kusama: '*The Clouds, 2019*', by this sculptor, filmmaker and performer, is a sprawling sculptural installation consisting of 90 organically shaped clouds made of stainless steel that are displayed on the ground to mirror the sky. It represents a cosmological dreamscape in which she explores the sublime through the lens of the personal. With no instructions on how to install the work, *The Clouds* is a fluid manifestation of an ever-expanding infinity.

Reena Saini Kallat: '*Closet Quarries*' is a series of paintings made using rubber stamps, which reference the great inlay patterns of Mughal architectural monuments found in India. The rubber stamps carry the names of the craftsmen and symbols seen in these monuments, and beautifully intercept the austere inlay patterns through text and symbols evoking notions of labour, memory and the subneged, factual, and fictional, histories and myths that surround monument-making.

FOUNTAIN OF JOY

Our lotus-inspired Fountain of Joy at Dhirubhai Ambani Square celebrates the vibrant spirit of Mumbai and offers a rich, unique collection of beautifully choreographed performances in an open, public space that welcomes everyone. Jets of water soar 45 ft high while they pulse to the rhythm of music, amidst a myriad of colours. The mesmerising combination of water, light, mist and sound creates a magical display that is unforgettable, making this a must-see destination in the city.

THE CULTURAL CENTRE

This one-of-its-kind, multi-disciplinary Cultural Centre comprises three state-of-the-art theatres that seat 2000, 250 and 125 people as well as a dedicated costume and visual art space. The aim of this multidisciplinary Centre is to provide a platform to make arts and culture accessible to all audiences from across the globe.

JIO WORLD PLAZA

Jio World Plaza will be Mumbai's premier retail space comprising four floors of international and Indian luxury brands; an Indian designer precinct that features influential Indian designers; unique concept stores, an on-trend beauty section, exclusive restaurants and cafes, a next-gen world food emporium, and a 6-screen INOX multiplex cinema.

JIO WORLD RESIDENCES

These luxury serviced residences set the highest standards for exceptional living, and comes equipped with access to vast, beautiful rooftop gardens. It features 139 apartments that include villas and penthouses, all with expansive living spaces, high-end finishes, state-of-the-art rooms, and all-glass exteriors.

THE CLUBHOUSE

Taking its cues from the elegance of the apartment's interiors, The Clubhouse spans 96,000 sq. ft. It is a multi-level space that offers top-of-the-line amenities to its residents. It is home to a business centre, a high-end restaurant to ensure one diners in style; a pool that invites relaxation; a state-of-the-art fitness centre, a billiards room, and an attractive spa and wellness club, all designed to offer a place to disconnect from city life.

JIO WORLD OFFICES

This ultra-modern business complex offers both exclusivity and technologically-advanced, flexible spaces that are rooted in a sense of community and place. Spread out over 800,000 sq.ft. and easily holding between 60 to 600 occupants per floor, it also features a VIP sky lobby, landscaped terraces, and a dedicated helipad.

JIO WORLD DRIVE

Jio World Drive is a one-of-its-kind retail precinct where art, culture, entertainment and cuisine integrate to offer a kaleidoscope of experiences. Located at Maker Maxity, Jio World Drive comprises India's first rooftop drive-in theatre, a PVR Maison Multiplex, iconic flagship stores, restaurants, a weekend community market, and it is also Mumbai's first pet-friendly mall.

BAY CLUB

The Bay Club is a 1,20,000 sq. ft. by-invitation only, private members club managed by the Oberoi Group and is a part of the Jio World Drive precinct. This exclusive family, sports & recreation, corporate & lifestyle facility seamlessly integrates function and design.
